

January 17, 2024 | Washington, D.C.

Meet Aviation Security Decision-Makers from Vietnam

Meet senior decision-makers from the Vietnamese Ministry of Transport (MoT) and civil aviation authorities who are interested in U.S. advanced airport screening and aviation security technologies, equipment, training procedures, and best practices.

BACKGROUND

Vietnam is the world's fifth fastest-growing aviation market, with passenger and cargo traffic projected to grow by approximately 8% annually through 2030. By this date, CAAV expects that the country's airports will need to accommodate approximately 278 million passengers and 4.1 million tons of cargo annually. Vietnam is making significant investments in airport construction and upgrades to meet this expected growth in demand.

USTDA will host a Business Briefing on January 17, 2024, in Washington, D.C., to connect U.S. aviation security companies, manufacturers and solution providers to senior Vietnamese aviation sector decision-makers.

U.S. companies will have the opportunity to meet these officials, briefly introduce their solutions, and gain insight into specific near-term commercial opportunities related to Vietnam's aviation infrastructure expansion.

ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority infrastructure projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding projects preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at this event is limited to U.S. individuals, U.S. firms, or U.S. consultants as defined by USTDA's Nationality Source and Origin Requirements available on USTDA's website at <http://www.ustda.gov/>.

WHY YOU SHOULD ATTEND

- Gain market intelligence and learn about upcoming procurement opportunities in aviation security.
- Establish new business partnerships and meet with key decision-makers
- Learn about near-term airport screening and infrastructure expansion plans.

BUSINESS OPPORTUNITIES

- Aviation safety and security technology
- Cutting-edge checkpoint design screening technology
- Advanced hold baggage and cargo screening technology
- Automated screening lanes technology
- Anti-UAS/Drone solutions
- Enhanced screening protocols, policies, regulations, training, and best practices
