

APRIL 23, 2024 | ARLINGTON, VA | 9 A.M. EDT

Meet Rail Transit Decision-Makers from Brazil

The U.S. Trade and Development Agency is hosting a business briefing on April 23, 2024 to highlight opportunities in Brazil's rail transit sector. Delegates representing key rail transit organizations and state governments will present to U.S. companies on their modernization projects and initiatives.

BACKGROUND

The Government of Brazil has increased the country's focus on building and modernizing rail transit systems, offering excellent opportunities for U.S. firms providing rail transit modernization technologies.

Rail transit volumes continue to climb following the COVID-19 pandemic and state governments are seeking high-quality rail infrastructure that meets increasing passenger demand and mitigates the need for private transportation.

Passenger rail decision makers are seeking operational efficiencies, while also striving to improve safety, expand their transportation networks, and reduce the use of fossil fuels to power and propel transit networks.

ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority infrastructure projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at this event is limited to U.S. and Brazilian individuals, firms, or consultants as defined by USTDA's Nationality Source and Origin Requirements available on USTDA's website at www.USTDA.gov.

REGISTER NOW

WHY YOU SHOULD ATTEND

- Learn about upcoming project opportunities and bidding processes
- Gain an understanding of current rail transit initiatives and policies
- Meet one-on-one with decision-makers

BUSINESS OPPORTUNITIES

Participating representatives are interested to learn more about:

- Connectivity solutions
- Safety and signaling systems
- Cybersecurity
- Energy efficiency solutions
- Distributed generation and power systems
- Electronic payment systems
- Financing options
