

Aviation Safety and Security Reverse Trade Mission

USTDA invites U.S. companies to meet senior decision-makers from Indonesia and the Philippines advancing aviation safety and security priorities to learn about upcoming project and investment opportunities and showcase their American aviation technologies, services, and solutions.

DATE **October 27, 2026**

TIME **9am to 4pm EDT**

PLACE **Arlington, VA**

Background

Indonesia and the Philippines are among Southeast Asia's fastest-growing aviation markets, driven by expanding passenger demand, airport modernization, and significant investment in aviation infrastructure. As both countries strengthen their aviation ecosystems, they are creating substantial opportunities for U.S. companies to deliver advanced technologies, equipment, services and operational expertise that support efficient, secure and future-ready aviation systems. At this briefing, U.S. companies can learn more about specific efforts and participate in targeted one-on-one meetings with delegates.

Business Opportunities

- Airport safety and **security systems**
- Passenger and cargo **screening technologies**
- Air **traffic management** systems

About USTDA

The U.S. Trade and Development Agency is the U.S. government's first mover on critical infrastructure development in emerging markets, advancing the shared strategic priorities of the United States and our overseas partners while creating opportunities to deploy trusted U.S. solutions. USTDA funds the upfront technical work that accelerates the development of infrastructure projects, helping them attract the financing they need for implementation and procurement of U.S. goods and services.
