

Meet AI and Cybersecurity Leaders from Jordan

USTDA invites U.S. companies to engage with Jordan cybersecurity decision makers to build partnerships and learn about emerging opportunities as Jordan modernizes its cybersecurity infrastructure, including through the use of artificial intelligence (AI) solutions.

DATE **Oct 21, 2026**

TIME **1 – 5 p.m. PST**

PLACE **Silicon Valley, CA**

Background

Jordan is advancing its digital transformation by investing in AI and cybersecurity infrastructure as key drivers of economic growth and innovation. Supported by a skilled technology workforce, a growing startup ecosystem, and government initiatives to strengthen digital capabilities, the country is positioning itself as a regional hub for emerging technologies while enhancing the security and resilience of its digital infrastructure. This event offers an opportunity to showcase American technologies that can advance Jordan's cybersecurity goals.

About USTDA

The U.S. Trade and Development Agency is the U.S. government's first mover on critical infrastructure development in emerging markets, advancing the shared strategic priorities of the United States and our overseas partners while creating opportunities to deploy trusted U.S. solutions. USTDA funds the upfront technical work that accelerates the development of infrastructure projects, helping them attract the financing they need for implementation and procurement of U.S. goods and services.

Business Opportunities

- AI-driven **security** and **zero-trust networks**
- **Supply chain** risk management
- Threat **assessment** and incident **response**
- Recovery and resilience **planning**
- Secure **digital transformation** of **legacy infrastructure**
