

Civil Nuclear Energy Workshop: Partnering for Implementation

This event convenes U.S. industry and government with European and Eurasian nuclear energy leaders to advance the safe and efficient deployment of civil nuclear energy technologies and showcase U.S. innovations to support the region's energy security goals.

DATE **July 15-16, 2026**

TIME **9:00 – 16:00 BST**

PLACE **London, United Kingdom**

Background

U.S. nuclear industry leaders and European and Eurasian regulators, energy officials, and utility operators are invited to join U.S. government officials for insights and exchanges on reactor deployment lessons learned, solutions for industrial applications, project management, financing considerations, and other issues impacting the successful development, structuring, and delivery of nuclear projects.

One-on-one meetings between U.S. and foreign participants will build partnerships to bring U.S. innovations to advance European and Eurasian energy ambitions.

About USTDA

The U.S. Trade and Development Agency is the U.S. government's first mover on critical infrastructure development in emerging markets, advancing the shared strategic priorities of the United States and our overseas partners while creating opportunities to deploy trusted U.S. solutions. USTDA funds the upfront technical work that accelerates the development of infrastructure projects, helping them attract the financing they need for implementation and procurement of U.S. goods and services.
