

# Natural Gas Infrastructure Opportunities in Egypt, Jordan and Morocco

The U.S. Trade and Development Agency is hosting a business briefing with energy sector decision makers from the Middle East and North Africa (MENA) region for U.S. gas infrastructure companies to meet with and hear from the delegation about upcoming opportunities across the global gas value chain.

DATE **April 23rd, 2026**

TIME **8:00a - 3:00p CDT**

PLACE **Houston, TX**

## Background

The MENA region is expanding its investment in natural gas infrastructure – from enhanced supply, increased LNG imports, expanded pipeline systems, and increased gas utilization. The region offers near-term and ongoing opportunities for U.S. companies to supply LNG and natural gas products, services, and technologies. This event will introduce delegates from Egypt, Jordan, and Morocco to U.S. companies providing LNG and natural gas technologies and services to support infrastructure projects in the MENA region.

## Business Opportunities

- **Natural gas** extraction and production
- **LNG** importation, exportation and transportation
- **Pipeline** development
- **Gas-to-power**

**REGISTER NOW**

## About USTDA

The U.S. Trade and Development Agency is the U.S. government's first mover on critical infrastructure development in emerging markets, advancing the shared strategic priorities of the United States and our overseas partners while creating opportunities to deploy trusted U.S. solutions. USTDA funds the upfront technical work that accelerates the development of infrastructure projects, helping them attract the financing they need for implementation and procurement of U.S. goods and services.
