

U.S. - Africa Grid Security Forum

USTDA invites U.S. and African power sector leaders to address grid security priorities, forge partnerships, connect around upcoming transmission and distribution projects, and showcase advanced U.S. technologies strengthening reliability and modernization across Africa's power grid.

DATE **November 10th – 11th, 2026**

TIME **9:00 am**

PLACE **InterContinental Table Bay,
Cape Town, South Africa**

Background

Reliable, well-integrated transmission and distribution networks are foundational to sub-Saharan Africa's economic vibrance, as population growth, urbanization, and rising industrial demand drive the need for modern power infrastructure. Governments and utilities are prioritizing grid investments to **strengthen regional grids, reduce long-term costs, and expand access to reliable power**. These investments are also opening opportunities for U.S. technologies, engineering expertise, and equipment to help build the region's next generation of power infrastructure.

About USTDA

The U.S. Trade and Development Agency is the U.S. government's first mover on critical infrastructure development in emerging markets, advancing the shared strategic priorities of the United States and our overseas partners while creating opportunities to deploy trusted U.S. solutions. USTDA funds the upfront technical work that accelerates the development of infrastructure projects, helping them attract the financing they need for implementation and procurement of U.S. goods and services.

Business Opportunities

- **Transmission planning** and optimization
- SI-enabled **grid technologies**
- **Energy integration** technologies
- **Project development** and **financing** mechanisms
